FALCON® Nano Shield Coating

Nanotechnology is the world's first one step water-based Hydrophobic spray on surface protectant

- Biodegradable, Nano Titanium Dioxide (TiO₂) for superior longevity and UV protection.
- Application for vehicle, windows, glasses, mirror, all kinds of flat & smooth surfaces.
- Long-lasting self-cleaning effect keeps the surface dry, repels dirty water and oils. A light rain or spray of water eliminates the contaminate. Before apply FALCON® Nano Shield Coating, clean with Nanomite™ Wash & Shine on the surfaces for best result.

Spray & Wipe

Before Use
Rains made water mark on glasses, causing acid rain corrosion.

After Use
Water formed drops on glasses, prevent acid rain and increase visibility.

One-Step Wash

Nano Wash 6 Steps:

Step 1
Contaminated Surface (e.g. Dirt, Grime, Oil)

Step 4
Positively Charged Nano Particles Attach to Surface

Step 2
Application of Nanomite™ Wash & Shine on Surface

Step 5
Rinse or Wipe Surface to Remove All Contaminants

Step 3
Dirt is Moistened and Dissolved by Wash-Activated Nano Particles

Step 6
Result: Long Lasting Nano Layer of Protection & Up to 100% Greater Shine

Nanomite™ Wash & Shine Instant Nano Polymer Protection

Biodegradable, Non-toxic, Non-flammable, Hypoallergenic, No Wax, UV resistant

- Super concentration ratio of 1:400:** Add 1 cap full of Wash & Shine into 8-10 liters bucket with clean water. 500ml bottle enough to wash 20 times.
- Simple to use:** Just Wash, Rinse, and Dry. Shine is increased up to 100%.
- No Wax:** Enhances the color. Get the same results as waxing. Save all that time, effort, and the additional product costs. After clean, use FALCON® Nano Shield to protect the surface for best result.
- Lost Lasting up to 90-day:** Effectively repels dirt, water and other contaminants. Disinfects all surfaces to a high degree, creates an interlacing of mono-molecular coating.

DIAMON-FUSION INTERNATIONAL

NO.1 of The World's Most Advanced Glass Coatings!

CLEAN & FRESH

WINDOW CLEANER & AIR PURIFIER

Clean Window Also Clean The Air

PURETI is a water-based surface treatment that is sprayed on glass, curtains, and light fixtures. **NASA Dual Use Technology Partner** and registered a breakthrough technology **"Photocatalysis"** safe for material surface contact approved by FDA & NSF to improve indoor air quality by **reducing VOCs up to 70%**.

◆ Light energy coming through glass activates PURETi's **photocatalytic TiO2 particles**. Durably bonded, invisible mineral particles on the surface react with rays from the sun to transform the glass into an air scrubber. Build-up film on glass, make wiping away fingerprints and smudges a snap, destroy harmful airborne pollutants and lingering odor molecules.

◆ Treat windows, curtains, and light fixtures with an invisible photocatalytic coating. **Energy from UV-A light safely oxidizes organic pollutants for months.**

◆ Suitable for any indoor conditions likes living room, dinning room, lobby, office, classroom, hotel, library, laboratory, hospital, clinic, nursery room, smoking room, pet room, inside the car or boat, or more.
